

## TRAINING ANNOUNCEMENT

**TACTICAL TRACKING COURSE LEVEL 1 (TTC-01) JAN 29, - FEB 2, 2018**

**TACTICAL TRACKING COURSE LEVEL 2 (TTC-02) FEB 5, - FEB 9, 2018**

**CITY OF BUCKEYE, ARIZONA**

TTOS is pleased to announce that the **Buckeye Police Department** will be hosting a **Level I Tactical Tracking Course (TTC-01)** from **January 29 – February 2, 2018**, and **Level II Tactical Tracking Course (TTC-02)** from **February 5 – 9, 2018**

The **TTOS Tactical Tracking Course** is dynamic and fast paced visual tracking based course designed to train law enforcement personnel's visual perception, cognitive abilities to detect, analyze, collect and follow visual cues created by the passage or movement of personnel, vehicles, or animals through an area, scene or any tactical environment. Students will be able to detect and interpret evidence left on the ground (footwear, tire impressions, action indicators), correctly identify evidence related to the person being sought, correctly process and photograph the evidence for use in criminal investigations/prosecution. The new skill set enables LEO's to detect the slightest of visual cues and logically connect them to the subject that left them through both inductive and deductive reasoning, also referred to as "tactical tracking." This skill will enhance law enforcement personnel abilities to locate and identify suspects, discover and collect evidence, and locate missing or injured parties.

This training is ideal for state, county, municipal, tribal and federal agents that work or operate in rural environments, high crime areas, and austere environments (high intensity drug areas, trans-national smuggling areas, or narcotics cultivation and manufacturing areas). Training will increase operational effectiveness with; rural crime scene processing, fugitive recovery/manhunting operations, network targeting and interdiction, resource violation investigations, and search and rescue operations. This course is suitable for patrol officers, tactical teams, field agents, and supervisory staff.

**Tactical Tracking Course (TTC) lesson plan will cover and be given hours of individual credit, including but not limited to:**

### **TTC-01 (Primary Lessons)**

- Visual tracking tactics, techniques, and procedures (TTPs)
- Dynamics of a footprint and gait analysis
- Track, sign and action indicator interpretation
- Ground and aerial sign visual indicators and aging
- Individual tracking techniques and tactical team tracking techniques
- Small unit tactics and encounter actions
- Chase profiling and predictive analyses
- Lowlight/no light tracking
- Basic land navigation, terrain profiling and association

### **TTC-02 (Primary Lessons)**

- Tracking operations and reporting procedures
- Site Analysis and Back Tracking
- Identification of Booby-Trap and Explosive Hazards
- Advanced Observational Techniques (Optics)
- Tracking and Surveillance
- Anti-Tracking Techniques
- Tracking in Urban Environments

# TRAINING ANNOUNCEMENT – BUCKEYE POLICE DEPARTMENT

- Rural Shooting Techniques
- Coordination of Tracking Teams
- Integration of Assets
- And Manhunt FTX.

## TRAINING END STATE

### Operational Capability

Trained personnel will be capable of using visual tracking and tracking TTPs to close the time-distance gap with suspects or persons of interest to the point of positive identification by:

- Detecting and positively identifying tracks, prints and impressions
- Conclusively linking observations made to the suspect or person of interest
- Analyzing and following the chain of evidence between the tracker or tracking team and the suspect or person of interest
- Closing the time-distance gap
- Apprehension or recovery

### Leadership

- Building and managing cohesive and effective teams
- Small unit tactical leadership
- Operational planning
- Managing effective After Actions Reviews

### Technical and Tactical Interoperability

- Technical interoperability (concept and overview)
- Managing multi-jurisdictional tactical knowledge bases
- Managing containment for fugitive/recovery operations
- Managing non-organic tactical assets
- Air-Ground operations and control

### Use of Force/Tactical

- Use of force and tactical decision-making
- Practical concepts for K9 operations
- Small unit tactics for rural environments

### Crime Scene Management

- Crime scene processing and interpretation
- Footwear and tire impression documentation and collection
- Fixing, documenting and collecting evidence in remote environments

## THE COMPANY:

TTOS the premier source of instruction in Combat Tracking, Tactical Tracking, Survival and Evasion, ISR and Targeting. **We are the front door of entry into the world of tracking for both the military and law enforcement.** TTOS reestablished Combat Tracking for the U.S. Military and is the only company to run a Combat Tracking School for the Army and our Tactical Tracking Course are POST recognized/certified in multiple states.

The subject matter experts (SME's) that created this course are **internationally recognized** and also the primary instructors for this course. The SME's are highly experienced and well educated instructors, all having a lifetime of expertise in military SOF, law enforcement, SWAT, supervision and command training and operations. The CV's of the instructors can be produced on demand at any time. We not only make great trackers, but clearly lead students to a depth of knowledge in which they are able to grow and eventually work as instructors on their own.

**COURSE:** Level 1 Tactical Tracking Course (TTC-01), 5 Day POI; Level 2 Tactical Tracking Course (TTC-02), 5 Day POI

**TRAINING DATES:** TTC-01 Jan 29 to Feb 2, 2018; TTC-02 Feb 2 – 9, 2018

**DISTRIBUTION STATEMENT:** Distribution authorized to LE Personnel Only. This document contains proprietary information. Other requests for this document must be referred to: TTOS, Inc
