- Planned Overwatch Positions
- Observation/Communication Scenarios
- The Role of the 50 Cal in Venue Safety
- PBIED/VBIED/Vehicular Attack Mitigation

Course Description

This is a 5-day 50 hour course. The PSRPV™ Course is an advanced course and is NOT for the beginning Police Sniper. The course is conducted in a true advanced manner and students will need to show proficiency at every stage. PSRPV™ was designed to be the cornerstone for Public Venue Response and Deployment for SWAT teams. Optimally designed for a Police Sniper that is experienced and/or in an instructor role and has excellent skills of marksmanship and fieldcraft. The course is conducted in a crawl, walk, run progression. Students will be challenged with round accountability and physical conditioning. Expect to move in kit with a purpose. The course is ideal for agencies that are responsible for public safety at public venues where large crowds attend and could be the target of a domestic or international attack via gunfire, explosives and/or vehicle ramming attacks. Students will learn not only the role of the Police Sniper in Overwatch Positions, but also Best Practices for SWAT teams and other work groups. New skill sets will be developed throughout and emphasized at the venue. Students will be required to successfully pass the range day before being allowed to live fire in the venue. Upon successful completion of the course, students will have the confidence through both training and documentation to intervene and protect citizens at public venues.

Course Pre-Requisite: Students must be current Law Enforcement or Military and at a minimum must have successfully passed a reputable basic sniper course. Subsequent advanced sniper courses and training are preferred. Verification may be required by the Instructors.

Round Count:

- 500 Factory Produced Rounds

Gear:

- All Police Sniper kit
- Tripods (if utilized at agency)

Ammunition/Weapon System Mandates:

No Armor Piercing, Bonded, Monolithic, Reloads or Steel Core rifle rounds allowed in the course. No rounds exceeding 3000 fps muzzle velocity from the student's precision rifle.

Precision Rifles must be capable of 1 Minute of Angle (MOA) accuracy or better with ammunition to be utilized in course. Variable Powered Riflescope equipped.

Any precision rifle that has a history of Accidental Discharges will not be allowed in the course. Verification will be asked prior to the course commencing
