

8TH ANNUAL SNIPERFEST TRAINING & COMPETITION

SniperFest brings together shooters from all over the state- and beyond, to train, interact, and compete while building a sense of comradery and open communication between agencies. The first two days are filled with debriefs, lessons learned, focused training blocks, and presentations from subject matter experts. Day three is a competition where participants can push their limits to win prizes from our amazing sponsors.

Students and instructors come in from all over the country to engage with one another in a challenging but enjoyable environment.

Sniperfest 2018 is presented by Tacflow Academy, in partnership with the Arizona Tactical Officers Association (501c3) and Strategic Armory Corps. We are thankful to have the help and support of these two likeminded organizations to continue to produce this fantastic event!

2018 SPONSORSHIP OPPORTUNITIES

This multi-day conference has become one of the annual favorites for vendors who have attended previous years. On Day 1, vendors are set up inside the main hall, giving you the opportunity to hear and watch the debriefs and have direct access to the students the entire day. In past years day 2 was a gap, but this year we are changing our format to be more vendor friendly, with sign up and lunch time available for our Charlie and Delta Sponsorships, and setup space on the range during training blocks for our Alpha and Bravo Sponsorships.

While we do accept (and appreciate!) raffle/ prize items and count their value towards the cost of each Sponsorship, this year especially we would appreciate at least a partial cash donation to offset the additional costs in moving the event up north- which means hotel and travel expenses for all instructors, safety officers, etc. and this is a very low-cost event for the attendees, and we appreciate your help in keeping it that way! these two likeminded organizations to continue to produce this fantastic event!
